Polymer Coated Aluminum Sulfate
GUARANTEED ANALYSIS:
Sulfur (S)* ............................................................................................................................................12.00\%
12.00\% Combined Sulfur

DERIVED FROM: Polymer Coated Aluminum Sulfate.
ALSO CONTAINS NON PLANT FOOD INGREDIENT(s): $15.0 \%$ Aluminum (Al)* derived from Polymer Coated Aluminum Sulfate. *The aluminum sulfate in this product has been polymer coated to provide $12.0 \%$ coated slow release Sulfur (S).

Potential variables to be taken into account when choosing from the suggested rates.
Topdressing:

- Minimize contact of the fertilizer with the plant stem.
- With overhead irrigation it is always suggested that you spread the fertilizer over the entire surface of the growing media.
- With drip irrigation or spray stake irrigation ensure that the fertilizer is close to the emitter.

Low Rate: It is suggested that the low rate be used if-

- Plants being fertilized are in an area of reduced air flow (closely spaced plants, cold frame, greenhouse, etc.)
- Plants being fertilized are very young.
- Media pH is lower than 6.0.
- If flood irrigation or recycled irrigation water is utilized.
- If low volume irrigation methods are used (cyclic, no leaching of containers).
- If irrigation occurs less than 3 times per week- such as late winter/early fall.
- If peat based or other high water holding media are used.
- If Aluminum Sulfate has been applied previously in either granular of liquid form.

High Rate: may be consider if-

- Plants being fertilized are well established and are grown outside.
- Plants are being grown in a bark based media.
- Media pH is higher than 6.0.
- Irrigation occurs more than 3 times a week- such as late spring/summer

| LBS PER CUBIC YARD |  |  |
| LOW |  |  |
| HIGH |  |  |
| LBS | 8 | 12 |

NOTE: These rates are provided as a guide only. Specific rates will vary be region, media type, and performance requirements. Florikan recommends that you test this material on a small number of plants before applying to an entire crop to determine which rate is best suited to your location and conditions.

SKU: AL-SO4-180
U.S. STANDARD - NET WEIGHT 50 LB. (22.68 KG.)

Signal Word: DANGER
Hazard Statement: Causes serious eye damage
Precautionary Statement: Keep out of reach of children - read label before use \& have label available should medical attention be needed - wear protective gloves \& clothing/eye \& face protection - if in eyes rinse and remove contact lenses immediately call poison control
